MODULE 1: ENTREPRENEURIAL COMPETENCIES

1. General description of the module

This module will provide basic understanding and some of the first steps in the process of setting up and starting a business. It will define and explain some of the cornerstone concepts in entrepreneurship, such as refining a business idea, finding and exploiting opportunities, acquiring and utilizing resources. It will also be useful as an overview of underlying characteristics that are important for one to perform their role as an entrepreneur in a successful way.

2. List of Topics:

Topic 1: Ideas and Opportunities

Short description: This topic will provide information regarding the important steps one has to follow to become an entrepreneur, what actions should be able to take beyond his requirements and act fast and before he is asked, how to face significant obstacles, how to use limited resources and looks for different but efficient approaches to resolving problems and achieving goals. An entrepreneur always measures his actions as well as the consequences and impact of his projects.

Topic 2: Creativity

Short description: This topic will provide information regarding the importance of creativity in an entrepreneur and how it contributes to a successful business.

Topic 3: Motivation and perseverance

Short description: This module will help in building and understanding the skills, needed for motivation of self and others. It will also provide some ideas how to persist in the effort to do or achieve something despite difficulties, failure, or opposition

Topic 4: Taking the initiative (planning and management)

Short description: This module will provide information and skills in the crucially important topic of planning and managing tasks for a group or small team. It will also look into the practical side of everyday entrepreneurial life

Topic 5: Learning through experience and working with others

Short description: This module will teach how to extract valuable experience from past actions and mistakes, and how to make your network of friends and acquaintances work for your goals and mutual interests. It will take on some soft skills like networking with others, building new contacts and being professional about it
